

Table of contents

1. SOMJATE CHAIYA and AIMO HINKKANEN Location of the critical points of certain polynomials	1
2. I. R. KAYUMOV Estimates of L_p norms for sums of positive functions	11
3. AKRAM LBEKKOURI Some results on local fields	17
4. MAMORU NUNOKAWA, EMEL YAVUZ DUMAN and SHIGEYOSHI OWA Properties of functions concerned with Carathéodory functions	33
5. MAMORU NUNOKAWA and JANUSZ SOKÓŁ Strongly gamma-starlike functions of order alpha	43
6. NICOLETA ULARU and NICOLETA BREAZ An integral operator on the classes $\mathcal{S}^*(\alpha)$ and $\mathcal{CVH}(\beta)$	53
7. M. A. QAZI Remarks on some recent results about polynomials with restricted zeros	59
8. C. SELVARAJ, O. S. BABU and G. MURUGUSUNDARAMOORTHY Coefficient bounds for some subclasses of p -valently starlike functions	65
