

# Contents

1. Foundations of Asymmetric Catalysis. General Introduction .....	7
2. Carbohydrate. Preview .....	15
3. Introduction to Carbohydrate-Based Ligands .....	19
3.1. Ligands with homodonor phosphorus atoms .....	24
3.1.1. Phosphines .....	25
3.1.1.1. Monophosphines .....	25
3.1.1.2. Diphosphines .....	28
3.1.2. Phospholanes .....	37
3.1.3. Phosphinites .....	41
3.1.3.1. Monophosphinites .....	42
3.1.3.2. Diphosphinites .....	45
3.1.4. Phosphites .....	56
3.1.4.1. Monophosphites .....	56
3.1.4.2. Diphosphites .....	61
3.1.5. Phosphoroamidites .....	67
3.1.6. <i>P,P'</i> -mixed ligands .....	69
3.2. Ligands with heterodonor atoms .....	73
3.2.1. <i>P,S</i> -chelating ligands .....	74

---

3.2.2. <i>P,N</i> -chelating ligands .....	79
3.2.3. <i>P,O</i> -chelating ligands .....	89
3.2.4. Tridentate type ligands .....	93
4. Conclusions .....	95
